Company: Don Macchiatos Malvar

Company Overview:

Don Macchiatos Malvar, located near Ateneo de Davao University, in Emilio Jacinto St, is a coffee franchise of its namesake, Don Macchiatos, which began as a small business venture in Pinamunguhan, Cebu. Known for its affordable coffee, it makes itself a stable option for busy students, individuals, and those on tight budgets. It started off with one coffee flavor, the Iced Caramel Macchiato. However, following its booming reputation, Don Macchiatos Malvar soon added three newer flavors to its menu–all of which are sold at the meager price of ₱39.

Business Rules:

1.) Don Macchiatos does not take any personal information from its customers. Instead, they get information about their preferred flavor and the quantity of their order. They also take note of whether or not their customer would want their drink caffeinated or not, served in a plastic cup or paper cup, and with or without a straw.
2.) Don Macchiatos has four (4) flavors: caramel, matcha, dark-cho, and strawberry. These are all served in one size only. They are sold at the price of ₱39.
3.) Once a customer orders and pays, they take note of the timestamp, the date, and the total price of the whole order.
4.) A customer can pay through cash or e-wallets.
5.) The employees in the company are generally segregated by how their salaries are calculated. The salaries of the chief operating officer (COO) and the supervisors are calculated monthly. Meanwhile, the salaries of the baristas, mixers, and cashiers are calculated daily. There is also no clear hierarchical relationship between baristas, mixers, and cashiers. The supervisor stands as the general leader on a regular working day.
6.) Baristas, mixers, and cashiers work for 6 days a week. However, their work shifts vary between the morning and afternoon shifts. There should be at least three (3) working on a given shift.
7.) Their inventory is divided into two general categories: perishables and non-perishables. That is the ingredients and the items used to serve the drinks. Workers take note of the following: the most recent restock date, number of items used, and the remaining stock.
